DETAILED ACTION

1. Receipt of the Supplemental Amendment filed October 23, 2007, amending claim 1 is acknowledged. Claims 1-7 are pending in the application and are presented to be examined upon their merits.

Response to Arguments

2. Applicant's arguments, see Supplemental Amendment and Response, filed October 23, 2007 with respect to the rejection(s) of claim(s) 1-6 under Rosenberg et al (US 6,363,357) after the applicant's amendment of claim 1 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration of the newly submitted claim language, a new ground(s) of rejection is made in view of Graham et al (US 6,594,700)

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-6 are rejected under 35 U.S.C. 102(e) as being anticipated by Graham (US 6,594,700)

Regarding claim 1, a method comprising: registering (402) *a client* (410, 412 & 416) and *a service* with a broker (see Graham at least column 6, lines 1-49); and

transmitting, to said broker, at least one attribute (or protocol) *by each of the client and the service* tagged for comparison by an internet service provided comparison function (see figs. 6 and 7, at least column 2, lines 28-49; column 6, lines 1-49 and)

wherein the at least one attribute of the client differs in data type from the at least one attribute of the service, and when the at least one attribute of the client and the at least one attribute of the service have differing contexts (clients have their own unique client protocol), *the comparison is made on a case-by-case basis* (see above citations and at least column 6, line 50 to column 9, line 30; esp. column 6, line 66 to column 7, line 38).

Regarding claim 2, transmitting at least one logical comparison operator to said broker (see column 6, line 50 to column 9, line 30).

Regarding claim 3, transmitting a comparison pointer with said attribute tagged for comparison, directing said broker to a uniform resource identifier (URI) for accessing said internet service provided comparison function (see citations provided in claim 1 above)

Regarding claim 4: transmitting said internet service provided comparison function to said broker (see citations provided in claim 1 above).

Regarding claim 5, wherein said transmitting further comprises transmitting metadata being at least one of extensible markup language (XML), hypertext markup language (HTML), text file, and binary (see column 6, line 50 to column 9, line 30)

Regarding claim 6, wherein said internet service provided comparison function compares attributes having at least one of varying data types and varying contexts, and is maintained

current (see above citations and at least column 6, line 50 to column 9, line 30; esp. column 6, line 66 to column 7, line 38).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
